ILORI BLESSING DAVID

ENTRY LEVEL CYBERSECURITY.

Lagos, Nigeria | blessingdavidilori@gmail.com
Portfolio: https://blessingdavid-cyber.github.io/

LinkedIn: https://www.linkedin.com/in/blessing-ilori-4a5886220/

PROFESSIONAL SUMMARY

Entry-level cybersecurity and IT professional with the CompTIA Security+ (SY0-701) certification. Transitioning from customer experience, fintech support, loan operations, social media management and digital community management, with 5+ years of customer-facing experience across fintech, health and lending environments. Brings cybersecurity training and practical lab experience in Linux, networking, cryptography, OpenSSL, vulnerability concepts, Windows security and Active Directory. Combines analytical thinking from a B.Sc. in Quantity Surveying with clear documentation, complaint handling, issue escalation and a security-minded approach to protecting users, systems and information. Seeking an entry-level cybersecurity, trainee, IT support, GRC, compliance, IAM, Junior roles or security operations opportunity.

CERTIFICATIONS

CompTIA Security+ (SY0-701): CompTIA | 2026 |

Foundations of Digital Marketing and E-commerce: Google via Coursera | Completed September 2026.

Cybersecurity Bootcamp Certificate of Completion: **GoMyCode** | 2024.

Certificate of National Service: National Youth Service Corps (**NYSC**) | 2020.

CYBERSECURITY & TECHNICAL SKILLS

Cybersecurity foundations: CIA Triad; threats, vulnerabilities and attack vectors; security architecture; governance, risk and compliance; security best practices

Networking & systems: Networking fundamentals; IP addressing; port scanning; DNS lookup; ping; Linux/Kali Linux; Windows Server

Security tools & labs: Nmap; Burp Suite; OpenSSL; VMware; Windows Defender; Active Directory; Group Policy; basic Python hashing

Security concepts: Cryptography, encryption and hashing; certificates and key pairs; log searching; password policy; SQL injection and DOM-based XSS concepts; digital forensics and chain of custody

Professional & digital: Customer support; CRM; complaint resolution; incident escalation; technical documentation; social media/community management; analytics; Microsoft Office; Google Workspace; Microsoft Project

PROJECTS & HANDS-ON LABS

Linux log review: Set up Kali Linux in VMware and used cat, head, tail and grep to read/search log files, including patterns resembling IP addresses.

Networking reconnaissance: Identified IP addresses across Kali Linux and Windows; used Nmap to scan ports, including a full 65,535-port scan, plus nslookup and ping.

Threat detection observation: Used a test-virus lab on Windows Server to observe Windows Defender detection, quarantine and removal.

Cryptography: Practised a Caesar cipher and wrote a Python function to calculate MD5 hashes using hashlib.

OpenSSL and certificates: Generated an RSA key pair, certificate signing request, self-signed certificate and PFX bundle on Kali Linux.

Active Directory policy: Used Active Directory and Group Policy to configure a password policy in a lab, including privileged-password length, expiry and lockout settings.

Web application attacks: Used Burp Suite in a lab to explore SQL injection and reviewed DOM-based cross-site scripting concepts.

Authentication architecture: Documented how RADIUS, Active Directory and Network Policy Server (NPS) can work together for authentication, logging and compliance.

Digital forensics report: Prepared a report on forensic evidence collection from infected systems, including preparation, volatile-data capture and chain of custody.

PROFESSIONAL EXPERIENCE

Customer Service Specialist | Vamp Technologies
Sep 2024 – Aug 2025

- Resolved client complaints by email within defined service timelines and documented customer feedback for the relevant teams.
- Communicated clearly with customers, maintained accurate case records and supported timely issue resolution.

Customer Experience Analyst | Flutterwave
Jun 2023 – Sep 2024

- Served as a first point of contact for customer enquiries and complaints across email, live chat and social media.
- Captured customer issues and communicated information clearly to support effective resolution and customer experience.

Customer Experience Representative | Outcess
Apr 2023 – May 2023

- Responded to customer questions and complaints on social media and recorded issues and actions taken.

Reliance Care Officer | Reliance Health
Feb 2023 – Apr 2023

- Supported corporate and retail customers, distribution partners and providers; relayed customer feedback to the appropriate teams.

Community Manager / Customer Support Representative | Telegram and Discord communities; crypto and meme-coin projects, including Dad Bod
2021 – Present

- Answered user support tickets and questions in Telegram and Discord, helping users resolve day-to-day issues.
- Moderated online communities, resolved user concerns and escalated technical issues to relevant teams.

Social Media Manager (Freelance) | Remote
2023 – Present

- Planned content calendars, monitored analytics and supported audience growth and engagement for client accounts.
- Helped grow a client’s X account from zero to 25,500 followers in about a year; supported account monetization.
- Tracked performance including impressions, engagement and profile visits to guide content decisions.

Transcriber | Precision Edge Limited
2022

- Transcribed material with attention to accuracy, consistency and detail.

Loan Collection Officer | Xgo Finance Limited, Ikeja
Sep 2020 – Mar 2021

- Explained outstanding debts and repayment options to clients and supported respectful customer communication.

- Contributed to credit-policy improvements associated with a 15% increase in approved loans.

Sales Representative | UMES Agro Venture
2019 – 2022

- Supported sales of agricultural produce and helped promote products through customer-facing activities and social media.

Civic Education Teacher (NYSC) | National Youth Service Corps
2020

- Delivered Civic Education lessons and communicated learning material to students.

Quantity Surveying Intern | Collins Associates
2017 – 2018

- Gained early workplace exposure in quantity surveying, documentation and project-related processes.
- Supervised onsite work – from foundation level (substructure) to superstructure.
- Cost planning and procurement (did price survey)
- Valuation and progress report.
- Collaborating with site engineers and contractors.

EDUCATION & PROFESSIONAL TRAINING

University Education:

B.Sc. Quantity Surveying — Obafemi Awolowo University (**OAU**), Ile-Ife, Nigeria. Second Class Honours (Lower Division); awarded July 2019. Developed analytical, numerical, project-planning and documentation skills; used Microsoft Project for planning and scheduling.

Bootcamps:

TS Academy — Cybersecurity Training | October 2026 – Present.
GoMyCode — Cybersecurity Bootcamp | Completed December 2024.

Self-Study:

Infosec via Coursera — CompTIA Security+ SY0-701 course | August–September 2026 |
Google via Coursera — Foundations of Digital Marketing and E-commerce | Completed September 2026.

CAREER FOCUS

Seeking entry-level opportunities in cybersecurity, trainee roles, IT support or information security where I can apply foundational technical knowledge, customer-facing experience, documentation discipline and a strong learning mindset.
